sociation is not in a very flourishing condition at present, owing to the fact that manufacturers are not taking much interest in it, and do not abide by the rules. The card scale is cut by them wherever opportunity offers. The busines in this city has diminished rapidly within the past two years. A nail manufacturer, in speaking of it, said yesterday:

"Pittsburgh was formerly the nail market, but now there are few nails made here. The only mills that are running are Chess, Cook & Co. and Jones & Laughlin. Shoenberger & Co. are making a few, but their product does not a amount to much. The total output daily at present is about 800 kegs. If the above mills were running full time they would be able to turn out about 3,000 kegs per day. The cause of the small output is due to the depression in general business at present and the dullness of the iron market. There is absolutely nothing doing, and I sincerely hope the meeting will do something that will brighten things up somewhat."

It is also definitely stated that the tubeworkers will be identified, and are anxious to come into the organization. An application for a charter was made some time ago, but certain workmen, it is said, were prevented from coming in. This caused some dissension, and the

ganization.

It is stated on good authority that President Welhe's frequent visits to the East and West have been to form new believe of the new class of workmen as mitted into the association. These visits have been very successful, and it is helieved that there will be fully one-third as many more iron workers represented Don't Let it Escape, it May be Your Turn
